

AO Trauma Course— Advanced Principles of Fracture Management

October 28–30, 2024

Porvoo, Finland

Course description

Register now and improve your skills and knowledge. This course builds upon the AO principles and techniques learned in the AO Trauma Course—Basic Principles of Fracture Management and focuses on the principles and techniques of operative fracture management in more complex injuries.

The course format includes, lectures, case presentations, small group discussions and practical exercises on drybone models.

Target participants

For surgeons who are at the threshold of becoming independent surgeons and taking over decision-making responsibility for the treatment of complex injuries.

Course Chairs

Lasse Rämö
Helsinki University Hospital
Helsinki, Finland

Iikka Lantto
Oulu University Hospital
Oulu, Finland

Venue and Course Fee

Venue: Hotel Haikko Manor, Porvoo, Finland

Course Fee: EUR 1900.-

Learning objectives

- Apply reduction techniques in fracture management with attention to soft tissues
- Assess and treat complex diaphyseal and (peri)articular fractures using advanced application techniques
- Demonstrate strategies for assessing and treating open fractures and soft-tissue injuries
- Initiate appropriate management for patients with pelvic injuries and polytrauma
- Recognize complications and manage these accordingly

Modules

- Module 1: Review of the principles and new techniques
- Module 2: Injuries of the upper limb
- Module 3: Injuries of the lower limb
- Module 4: Polytrauma, pelvis, and acetabulum
- Module 5: Special situations and problems
